

SODA Incubation Proposal for <Project>

Project Links:

- Source repo, social media, slack, mailing list, issue tracker etc go here....

Project Contacts:

- Interface members name, role, contact email
- Project support emails etc

Notes about this template

- This template is for any new project incubation proposal
- The sections are only suggestive in nature, you can have additional information which can help the project pitch
- The section expectations from this template is a minimum requirement. Hence, please do not avoid any such relevant data. (However, if you want to change the flow/layout, please feel free to do that)
- Proposal intent is to help the TOC/Review team to assess the project about the suitability of incubation and the level at which it can be incubated to SODA Foundation Projects. Hence, all information if you think important.

Project Background and History

Project start, where, who/team behind, purpose etc...go here
